Midnight drive down on Jewella Rd.

Methamphetamines and carryin a lonely load

Roaches in the ashes, truck jamming "Limelight"

Look like it's gonna be just me and Geddy Lee tonight  
Shreveport, Oh Shreveport

Wonder where I'll be when the sun comes t' shine  
Glasspacks hummin by Circle In The Square

Heavy Metal Rednecks and their frizzy blonde hair

Fuck a bunch a hair-do boys and their Spandex britches

And their big titty, fancy drunk ass bitches  
Shreveport, Oh Shreveport

Wonder where I'll be when the sun comes t' shine  
David Green called me to pick him up after work

Said to bring him some cold beer and a fresh clean  
shirt

Said he was already broke and he just got paid

We spent the rest of the night singin' by his Mama's  
grave  
Shreveport, Oh Shreveport

Wonder where I'll be when the sun comes t' shine
