Brand new angel, did you just fall down from the sky  
Come to your sweet daddy, wipe the tears from your  
eyes

This must be your lucky day, I hope you like surprises

Save my weary soul, take me from this hole  
Lead me to the light or just take me through the night

Brand new angel, never turn your back on me  
Look deep into my eyes and tell me what you see  
People say you should stay away but I disagree

Save my weary soul, take me from this hole  
Lead me to the light or just take me through the night

Brand new angel, don't be so easy to deceive  
Things are different down here  
You gotta let your body breathe

Save my weary soul, take me from this hole  
Lead me to the light or just take me through the night
