Out of the rain, under the shelter
I've been so long where the sun don't shine
Standing at the cross-roads
Could have went either way
But now I've found you
And the storm is behind
Out of the rain, out of the rain
Out of the rain
Over the wall, I'm out in the open
Back on the right track, feeling no pain
You took a sparrow and let it fly like a eagle
I can see long ways, oh, I let it to love again
Out of the rain, out of the rain
Out of the rain
Took your sweet love
To pull me out of the canyon
I believe, I believe, I beleive, I believe
I can make it, baby, maybe to love again
Oh yes, I am
Out of the rain, out of the rain
Out of the rain
Over the wall, I'm out in the open
Back on the right track, oh, I'm feeling no pain
You took a sparrow, let it fly like a eagle
Well, I can see long ways, long ways, long ways
I think I can love again
Out of the rain, out of the rain
Out of the rain
Out of the rain, out of the rain
Out of the rain
