

Government Warning "Blank"

Visit "[Blank](#)" on MotoLyrics.com

Killing fields covered in blood
soldiers feet sink in the mud
sit back in your armchair
safe at home, unaware
army helmet - symbol of hate
another way to separate
people are so fucking blind
just wasting their precious time
nothing! blank! nothing at all
killing fields soaked with blood

face down in the fuckin mud
sit back in your armchair
the world's collapsing - you don't care
another war, another fight
the value of a human life
people are fuckin blind
now we're running out of time
nothing blank nothing at all
