Ejaculate on your weight machine  
steroid fed muscles, oiled up, glistening  
theres nothing in your life but fucking lifting weights  
you stand for everything that i fucking hate

crusin' for chicks at the mall on a friday night  
if you see a lone faggot, theres gonna be a fight  
flexing in the mirror and it turns you on  
by the time you become a cop, ill be fucking gone

letterman jackets in the parking lot

that shiny new camaro, you're so fucking hot  
the cop who's looking to kick my ass  
the transitions so smooth, and it happens so fast

high school is over, you're out on your own  
you're another stupid asshole body builder clone  
hide that erection for sylvester stalone  
you may be bigger, but you still haven't grown

big man, mr. football star, fuck you asshole and fuck  
your car
