

Government Warning "No Moderation"

Visit "[No Moderation](#)" on MotoLyrics.com

Can't stop because the night is still young
were just a bunch of fucked up kids out looking for fun
making noise and breaking bottles when its twenty
degrees
if my blood alcohol content wasn't so high, id fucking
freeze

no moderation
a bunch of little bastards on an endless vacation

cant stop 'til my body fucking breaks
no matter how much poison, no matter how long it
takes

with every beer thats put down, the anxiety goes higher
cant stop now we've gotta set the night on fire, let it
burn

with every fucked up wasted night the noose gets
tighter
but it feels like its loosening up so i don't give a fuck

no fucking moderation
were never gonna stop
