If it's all you can afford
Layin' down the pieces of this heart
I'm not a gambler
Walkin' a line
If you wanna play that game
It won't go far

Charm and mystery got the best of me
Nothing seems to be as it seems
I fall down, down, down...
Try your luck babe, roll the dice babe, try your luck now

Double cross to break this habit
Who's your boss you think it's magic
If your lost there's money, grab it,
grab it, grab it!

Pre-chorus
You can smile and think you won this round
The thruth is babe I'm the lucky one
Didn't your mama tell you never
To play around with fire
Understand I laid my love for you
Watch you play me like a fool
I learned your tricks by heart
I'll let you bet when I'll depart

Chorus
Game, it's a game don't forget just a game

If it's all you can afford
Linin' up against what we have
I'm not a gambler
Play'in for time
I don't know why you set me up
If I'm not on your team

Choked up questions got the best of me
Played my cards of curiosity
I'm goin' down, down, down...
Hell bent love, who's the addict

Raise your stakes, think it's tragic
No way out here's my love-grab it grab it...

Pre-chorus & chorus

I know that you find it a comfort to think that I cheated
you,
That's nothin' I would do
Boy you should know me too

Chorus & ending

(Merci
