Party girl
party girl
Sometimes she has to do what he hates to do

Having fun with it though it's hurting you

She loves to do what he hates to do

Loving it
having fun with it.

Party girl - Energy is like the sun

Party girl - Lights on everyone.
And it s wonderful whot she's done

Why he's wondering where she's been

She s in ond out
more out than in

While he's wondering where she's been.

She's a party girl
having fun - Having a good time

Party girl - Energy is like the sun

Party girl - Lights on everyone - Having a good time

Party girl - Energy is like the sun.

Are yov coming? Come on! If you gonna come
come!
Are you coming? Come on! I'm not waiting for you any
longer!

From his point of view she shouldn't leave a baby
crying in a cradle

And from her point of view he should give a spoce
for the art of selfexpression.

And it's wonderful what she's done

and he's wondering where she's been

She's in and out
more out than in

and she's wondering where she's been.

She's a party girl
lights on everyone -
She's having a good time

Party girl - Energy is like the sun

Party girl - And their having fun - They'll having a good
time

Party girl - Lights on everyone
party girl in a party world!
