Got to go to this dance, got to take my big chance, got
to do it

Got to take my big chance, got to go with this dance,
got to groove it

I'll accept all challenges you send
One thing you cannot hit,
Below the Belt

I can go the timeless dance with you
Just remember the rules,
Not Below the Belt

Below the Belt, all pain is felt
From right to left,
Just watch my legs melt
As i hit the ground
Lose the last round
Please stick around
Its not over yet,
No cheating, thats what i said
No hitting below the belt

I drink half all this night, i drink harmful thats fine, got
to lose it
You are stronger then i, no need to tell a lie, just to
prove it

Now wondering that is all you have to pay
For damages you made,
Below the Belt

I don't want your macho attitude
I didn't make all the rules,
Below the Belt

Below the Belt, all pain is felt
Your right to your left,
Just watch my legs melt
As i hit the ground
Lose the last round

Please stick around
Its not over yet,
No cheating, thats what i said
No hitting below the belt

Got to go to this dance, got to take my big chance, got
to do it
Got to go to this dance, got to take my big chance,
groove it

Got to go to this dance, got to take my big chance, got
to do it
Got to take my big chance, got to go with this dance,
got to groove it
I've trained hard for this night, I've train for this fight,
not to lose it
You are stronger then i, no need to tell a lie, just to
prove it
Got to go to this dance, got to take my big chance, got
to do it
