Don't need no ring, no wedding band  
We don't need no paper plan  
Just take my hand, for you're my man  
All we we need to understand

The rules of love are way beyond ordinary man  
We've got marriage of the heart  
Nothing's gonna keep us apart

I know, I'll know whenever he needs me because  
I am sure that he knows that love is, love is the tie that  
binds  
Clear enough so take my hand, our love is here to stay  
Love's insecure, yet we are sure, we don't need the  
paper play

No book of rule should ever use emotion for a tool  
Marriage of the heart, marriage of the heart  
No written page could tear us apart

Oh, I know that old rules are not the tools  
For a modern world  
Sign love on the line, sign love on the line

When you found a way, love will stay  
From then until forever more  
Just take the hand of your man  
That's all you need to understand

The rules of love, are way beyond ordinary man  
Marriage of the heart  
Nothing's gonna keep us apart

I know that I'll go wherever he needs me because  
I'm sure that he knows that love is, love is the tie that  
binds  
I'll know, I'll go, I'm sure he needs me and that I'll go
