C'mon
Mmm

She's a girl with the best intentions,
He's a man of his own invention.
She looked out the window, she walked out the door.
And she fell in love with him and he said "Whatcha
lookin' for?"

She said I want something that I want, something that I
tell myself
I need something that I want, I need everything
I see something that I want, something that I tell myself
I need something that I want, I need everything I see

He's been living in a pure illusion,
She's gonna come to her own conclusion.
Right when you think you know what to say,
Someone comes along and shows you a brand new
way

Said I want something that I want, something that I tell
myself
I need something that I want, I need everything
I see something that I want, something that I tell myself
I need something that I want, I need everything

Cause it's so easy to make believe,
It seems you're living in a dream
Don't you see what you need is standing in front of
you?

I want something that I want, something that I tell
myself
I need something that I want, I need everything
I see something that I want, something that I tell myself
I need something that I want, I need everything see
