The world just keep on turning like it's never gonna stop

But we all know better than that

Enjoy everyday, live it up all the way

Cause tomorrow doesn't come forever

Oooooo!!!!

Sunriseeeeeee start a brand new day

Shine down on the children of the world

Warm them as they play

Sunriseeee wake up every one light up one more moment on this earth

A new day has begun'ooooo

Look at this day sunshine or rain isn't beautiful

ooooo!!!

And live for today don't throw it away cause

Tomorrow doesn't come for ever?

Oooooooooo lalalalala oooooooooo yeah!!

Sunrise, thank you for today there ani't no tomorrow without you

You're the only way

Sunrise, thank you for today

(bakgrund:sunrise thank you for today (repeat)

Ooooooooooooooooooooo!!!!!!!Yeah

Shining sunrise circle us today

Shining shine on us today

Sunrise thank you for today
