Try to justify tradition, justify it
Justify the millions that have fallen
Justify billions that will follow
Justify teaching the crimes

Embrace the collision
Nurse us back from the confusion
Which cradles us into submission

Cry for me, cry for me, cry for me
'Cause I'm never coming back
'Cause I'm never coming back
'Cause I'm never coming

Disrupt the rituals, collapse the virus
That humanity incubates
Exhausts our awareness, we can't afford the loss
We can't afford the loss

Cry for me, cry for humanity, cry for me

Try to justify tradition, justify it
Justify the millions that have fallen
Justify billions that will follow
Justify teaching the crimes
