"In The Wake Of Poseidon"

The bodies were still warm
As I awoke, time took past away
The bodies were still warm
As I awoke, time took past away
Time took past away

We dragged what was left
To the shores
All just to see death
Burn holes through the black depths

In deliverance
Of the ocean nymphs
To see death
Burn holes through the black depths

Aand past Saturn's' rings
Such beautiful things
These screaming voices
Of bloodless corpses

Time will take that away
Time will take that away

Come to me, come to me
Legends, Gods and mystery
Come to me , come to me
Legends, Gods and mystery

As my brothers in rock
Send secret whispers
To thee legends

Legends, Gods, and mystery
Come to me , come to me
Legends, Gods and mystery
Come to me

Legends, Gods and mystery
Come to me
Legends, Gods and mystery
Legends, Gods and mystery

Legends, Gods and mystery
