DROP!

Get up out and see,

Come outside and see,

Cause' I just cant get enough of everything I crave,

Where I wanna be, just where I wanna be.

Try to grip this with a clenched fist,

Don't know why I'm slipping.

And that smile on your face

You'll behold this nations children and we do as we please.

Cause' I just cant get enough of everything I crave,

Where I wanna be, just where I wanna be.

Now that I found peace inside of this world, where I wanna be.

We built it brick by brick

We built it brick by brick.

So now that I found peace inside of this world, where I wanna be.

Just where I wanna be.

Scream till you hear us plead in fear and smile on occasion

Meantime you'll behold this nations children and we do as we please.

Cause' I just cant get enough of everything I crave,

Where I wanna be, just where I wanna be.

Now that I found peace inside of this world, where I wanna be.

We built it brick by brick

Brick by brick.

Passion, deceit, honesty and greed these things that need to feed.

Passion, deceit, lessen disloyalty these things that need to feed.

We built it brick by brick
