I am the clown in the show
She is star star don't you know
She is the knife in my life
She's heaven she's the rider, you know that she's
heaven
You know that she's heaven
She's the rider

A natural born jester like me
Hopes to make someone someone like you
Plays all his cards right up front
She's heaven she's the rider

Repeat

Bareback she's the rider, she rides for you not me
We don't know what's inside her, it's just for her to see
I'm the undercover lover
But she'll never know
Bareback she's the rider
Rider of the show

I'm thone that is small, she has the look look like them
all
Hides behind make up anad laughs, she's heaven
she's the rider
You know that she's heaven
She's the rider

So on and on I go
Feeling the love, love in me grow
Seeing the sun I am the one
She's heaven she's the rider

She was the fox on the run
I was the hunt the hunt she won
I was the fool on the hill to heaven she's the rider
You know that she's heaven
She's the rider
Heaven she's the rider
