Gew janna heavy woman makes me feel so cold
Gew janna's sister anna somethin' she sold
Those memories always flowing flying so real
Orbit me high gew janna until until until i
Until I die

Gew janna why did you leave me
Do do me magic lover do do me well
Laid back with sweat and waiting release my hell
Hell ain't the kind of feeling I want to feel

Orbit me high gew janna until until until i
Until I die
Gew janna why did you leave me

And then I saw a vision of the world before me
Like a dream I dreamed a million times
And the thrill when I was there
Believe me I was high so high

Repeat 1st verse
