Jesus, I don't exist. Don't try to follow me. What the fuck is going on here? You cant install a simple goddamn double implant? Its not my fault, we hit a memory cap. Use your hear you dumb bitch hes just acting out the secret agent role of his ego trip. But first lets get rid of the bug in your head. Take it out of the case and stick it up you nose. Get the reactor, free Mars. Don't worry its self-guiding, just shove read hard. If I wanted him dead you moron I wouldn't have dumped him on Earth. The only thing that I worry, is that one day, the rebels will win and it will end
