Fuck you. You senile bastard. This is bullshit. I like your gun man. Jesus had days like this hounded and attacked like a criminal. Nuke. Where is it made? I really like your gun man, where is it made? Take it and get out. I will kill you. They say he's got a brain, I want to see it. He's in hell, you son of a bitch, he's in hell. I don't blame you, they program you and you do it. Not even a corpse, you read miranda to a corpse. Shit, he's fucked up. Bad language makes for bad feelings, a rolling stone is worth two in the bush. I will kill you
