"Cut"

Visit "[Cut](#)" on MotoLyrics.com

The light is breaking through the window
We count the miles
Do you hum to static in your own life?
Or the radio?
Cut a little bit of me out tonight
Take a little bit of me inside to make you right
Cut a little bit of me out tonight
Cut a little bit cut a little bit
If you want you know that we could drive forever
Do you wanna go?
Do you feel that you never really found your station in
life?
I'm a radio
Cut a little bit of me out tonight
Take a little bit of me inside to make you right
Cut a little bit of me out tonight
Cut a little bit cut a little bit
You're driving off with the brakes on...
Come on out to me
I wish you could see everything that you could be
If you just let go
Cut a little bit of me out tonight
Take a little bit of me inside to make you right
Cut a little bit of me out tonight
Cut a little bit Cut a little bit
Come on out to me
Come on out to me
Come on out to me
Come on out to me
