Graham Colton
"Since You Broke It"

Tell me would you think less of me if I said I could do without you,
Tell me would you jump up and down if I said I couldn't see you again
Maybe it would hurt too much to hear I'm not the one that you wanted
Cuz you could never get me again
You could never get me again
Cuz you know it never seems to work right since you broke it
I don't really get what the joke is
Can somebody fill me in?
So tell me did you think I couldn't tell you might do just as well without me?
Tell me did you think I wouldn't mind when I knew you were lying again
So what you gonna do with yourself move on to someone else you can play with?
Cuz you could never get me again
Yeah you could never get me again
Cuz you know it never seems to work right since you broke it
I don't really get what the joke is
Can somebody fill me in?
So what you gonna do with yourself move on to someone else.... yeah I doubt it
You can have your next in line cuz I'm gonna be alright in the end
Cuz you know it , It never seems to work right since you broke it
I don't wanna get what the joke is
I don't wanna see it
Cuz you know it, It never seems to work right since you broke it
I don't wanna get what the joke is
I don't wanna get what the joke is
Alright.
