"South"

Visit "[South](#)" on MotoLyrics.com

You went up and down inside my head
The cut of your hair
The way you smoke your cigarette
I didn't want to get too far I didn't know that's who you
are
Now I just sit alone going through your mail
you don't pick up
You don't know what you got until it all goes south
You think you got alot until it all runs out
There's something about you that i can't get out my
head
And I won't wake up
From telling myself that you're coming around again
And I won't wake up
And I won't wake up
I still do all the things that we did before
I get through the day but just feel so bored
I didn't want to get too far I didn't know that's who you
are
Now I just sit alone going through your mail
you don't pick up
Oh, you don't know what you got until it all goes south
Oh, you think you got alot until it all runs out
There's something about you that i can't get out my
head
and i won't wake up
from telling myself that you're coming around again
and I won't wake up

[Chorus]

why can't you just get it through your head?
