The light is breaking through the window
And we count the miles
Do you hum
Take a little bit of me inside to make you right
To static in your own life
On the radio?
Cut a little bit of me out tonight
Cut a little bit of me out tonight
(cut a little bit, cut a little bit)
If you want
Cut a little bit, Cut a little bit
You know that we could drive forever
That you never really found your station in your life
Do you wanna go?
Do you feel
On the radio?
Cut a little bit of me out tonight
Cut a little bit out tonight
Cut a little bit, Cut a little bit
Take a little bit of me inside to make you right
(cut a little bit, cut a little bit)
You're driving off with the brakes on
Come on out to me
You're driving off with the brakes on
(You're driving off with the brakes on)
You're driving off with the brakes on)
Come on out to me
I wish you could see
If you just let go
Everything that you could be
Take a little bit of me inside to make you right
Cut a little bit of me out tonight
Cut a little bit out tonight
(cut a little bit, cut a little bit)
Come on out to me...Cut a little bit, Cut a little bit
