Break down, Break down, Break down, Break down
I'm not about to change what you've become
and I won't tell you what to say
Cause you don't care
If I'm right or I am wrong
Cause you just look the other way
Cause you take it from me
You will give her everything
She will lie, she will break you down inside
So how low
(break down, you will break down)
Did you go?
(break down, you will break down)
How low?
Now every time that you get her on the line
She is watching what you say
And you don't care
If she's wrong or she is right
You just let her have her way
You can take it from me
She will take you for everything
She will lie, she will break you down inside
So how low
(break down, you will break down)
Did you go?
(break down, you will break down)
How low?
ooooooh, yeah
ooooooh, yeah
You can take it from me
She will take you for everything
She will lie, she will break you down inside
You can crawl on your knees
You can give her everything
You ask why
She won't tell you anything
So how low
(break down, you will break down)
Did you go?
(break down, you will break down)
How low?
