"I Wish"

Visit "[I Wish](#)" on MotoLyrics.com

I wish the music would play by itself,
Shredded fingers... no ideas
I wish this rainy day could be the last,
Could the world end?... what a God send

I wish I could stop wishing you were here,
But I don't want to... cus I'd still want you

I wish I didn't feel so flippin mad,
Don't wanna scare you... just wanna love you

I wish my life could last a thousand years,
Then I'd be clever... and build a heaven

I wish I could bring Nick Drake back to life,
He'd understand... hold my hand

I wish a constant stream of happy shit,
Live forever... in world of leather

I wish the rain would just leave me alone,
I can't wear that... stupid rain hat

I wish I was in California
Pernod perfume.. in the Danube

I wish the thing of love meant just one thing
Cinderella... Salmonella
