### **"Morning Light"**

Visit "[Morning Light](#)" on [MotoLyrics.com](#)

Sometimes I think I pass you walking on the street and i  
believe it  
Sometimes I think I see you looking back at me.. now i  
see it  
everything you feel  
saying what is real  
Don't go away  
say you'll stay until the morning light  
Don't fade away into gray  
standing in the light  
I lie awake at night and never sleep to watch you  
breathing  
I tried to smile and laugh as you turned away but I was  
bleeding  
Everything I feel  
I make believe is real  
Don't go away

say you'll stay until the morning light  
Don't fade away into gray  
standing in the light  
sometimes I think I pass you walking on the street and I  
believe it  
sometimes I think I see you looking back at me.. now I  
see it  
Don't go away  
say you'll stay until the morning light  
and Don't fade away into gray  
standing in the light  
Don't go away  
say you'll stay until the morning light  
and Don't fade away into gray  
standing in the light
