Now the end is in sight, I'm just tired  
Lying awake at night, so wired

And fired up with biological urge in my belly  
And I hunt for the words on my telecaster  
Spinning faster, goodnight you

You're beautiful  
I love to watch your face in the morning light  
You're really cool  
I like the way we fight right through the night

And the way we used to kiss was way out of sight  
But I can never hope to set you free  
'Cause you're my bittersweet bundle of misery

As I study the lines on the ceiling  
I find the fact you're unkind, quite appealing

I'm feeling sure that I have come to the end of your  
tether  
And there's no such thing as happily ever  
After, it just gets dafter, goodnight you  
You're beautiful  
I love to watch your face in the morning light  
You're really cool  
I like the way we fight right through the night

And the way we used to kiss was way out of sight  
But I can never hope to set you free  
'Cause you're my bittersweet bundle of misery

It would take me an age to marry you  
Now I've seen you use my razor like you do, it's true

You're beautiful  
I love to watch your face in the morning light  
You're really cool  
I like the way we fight right through the night

And the way we used to kiss was way out of sight  
But I can never hope to set you free

'Cause you're my bittersweet bundle of misery
