Streets are hard in this old town  
Love lies broken all around  
In sorry piles  
That carry on for miles  
Stinking places where you go  
The good people hide below  
The bloody ground  
Never to be found

Little girl I tell no lie  
You got diamonds in your eyes  
So come with me  
Sail across the sea

Mister Ocean can't you see?  
We are begging on our knees  
To see the sand  
Of some other land

Stay with me  
We'll be free  
Just wait and see
