If you want me, come and get me  
If you want me, you'll be there  
In the daytime, in the night time  
Over here and, over there  
It's oh so serious  
It's oh so lame  
I'm half delirious, when you call my name  
If you want me, come and get me  
If you want me, you'll be there  
In the daytime, in the night time  
Over here and, over there  
It's oh so serious  
It's oh so lame  
I'm half delirious, when you call my name  
If you want me, come and get me  
If you want me, you'll be there  
It's oh so serious  
It's oh so lame
