Pre>capo at 2 (intro d em g em d
Em g g c
So all of you be damned we can't have heaven
crammed
Am c d
So winston churchill said I could have smacked his
head
Em g g c
And all of those infected waiting to be collected
Am c d
I must get out at any price before the feeling gets too
nice

Chorus
Em c g d
Just can't get, just can't get no protection
Em c g d
Just can't get, just can't get no protection
Em c g d g c
Just can't get, just can't get no can't get no protection,
G c g c d
Protection, protection

Every bomb is detonated every switch is thrown
And everybody tells me don't be scared act as if you
never cared
So I wear a blank expression to conceal my real
impression
Turn off all the information radios just pick up that
station

Repeat chorus then em/g am/c which repeats over
bridge

So turn off this sound I'm ready to go down

I don't know myself, I don't you either
You're full of disease it's something I discovered
I know you've been mixing with big brother's brother
It ain't the knife in the heart that tears you apart
It's just the thought of someone
It's just the thought of someone

Em em

It's just the thought of someone sticking it in, sticking it
in

So if you think that's funny I'm not really laughng honey
Your love letters are confetti I ripped them up my
hands were sweaty
And then those ghastly faces recur in nightmare places
Happy hours come and go much too short and much
too long

Chorus then this rhythm again em/g am/c

Turn off all the information radios just pick up that
station

Protection protection protection

It ain't the knife in the heart that tears you apart

It's just the thought of someone sticking it in

Protection protection switch it off switch it off switch it
off

Protection switch it off switch it off switch it off

Protection protection you want to hide? you want to
hide?

You want to hide, hide, hide? protection repeat and
fade /pre>
