C#m

I ain't stopping fingers keep bopping

F#m b e

Swing band rocking from the street to the bar

C#m

West coast's dated music's overrated

F#m a b

Here it on the radio in every car

Chorus

E a b d e d b a

The heat in harlem the heat in harlem, yep

E a b d b

The heat in harlem the heat in harlem

A b

And the heat of the soul

Ring that number hear that timbre

Watch my senses go right out the door

Born on the pavement that's where it happens

Rocking the apartment on the fifteenth floor

Chorus

Bridge

F#m a e

And when the heat burns your feet, got to jump to save
your skin

F#m a

And when you jump the water pump

B f#m

The water just rushes away in the burning heat

A e f#m a b

Ooh yep, save your skin, uuh

We've been screaming, screaming through a jukebox

Screaming at someone that don't even care

Born on the pavement that's where it happens

Feel like fire in the midnight air

Chorus twice

Slow bridge em a em a em (alternaties like this with
sometimes a em taking over)

A em a em dm em dm em

Look at the heat wave got everybody, got everybody
under it's spell

Sit back and wonder stand or go under, or feel the
thunder starting to swell

The heat in harlem, the heat in harlem the heat in
harlem punches then rolls

No big decision no aircondition the heat in harlem is
the heat of the soul

Mamma is crying daddy is trying brother is working for
everything you own

Sister is dreaming, dreaming of broadway around the
corner a million miles from home

The heat in harlem the heat in harlem the heat in
harlem punches then rolls

No big decision no aircondition the heat in harlem is
the heat of the soul

The heat of the soul the heat of the soul the heat of the
soul the heat of the soul

Down in the heatwave, yeah down down in the
heatwave down in the heatwave, yeah

Down in the heat, heat, yeah watch the moon come
down in the heat down in harlem town

Watch it all come down in the heat down in harlem town
The heat of the soul the heat of the soul

Watch it all come down in the heat down in harlem town
Watch the moon come down in the heat down in harlem
town

Down in the heatwave, yeah down in the heatwave,
yeah

Take it down in the heat heat yeah the heat of the soul
The heat of the soul

Down in the heat heat yeah down in the heat heat yeah
The heat of the soul the heat of the soul

Down in the heat heat yeah down in the heat heat uh uh

Down in the heat heat yeah down in the heat heat yeah

Down in the heat heat uh uh down in the heat heat yeah
