

Graham Parker & The Rumour "Hold Back The Night"

Visit "[Hold Back The Night](#)" on MotoLyrics.com

Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby

When you left
You took the sun
Right out of my sky
Yes you did
Wonder why
You went away
And never told me why

When the sun go down
The moon is near
I'm scared to death
'Cause your face appear

Hold back the night
Turn on the light
Don't wanna dream about you baby
Hold back the night
Turn on the light
Don't wanna dream about you baby

Loneliness
Holding me
When I go to bed yes it is
Like a character
In a book
That I have read

When the sun go down
The moon is near
I'm scared to death
'Cause your face appear

Hold it hold it hold it hold it

Hold back the night
