Impatiently  
They can't wait to fight  
The horn so loud  
The sun drowns

[Chorus:]  
Over mountains and seas  
Over forests and fields  
We live for our quest  
And we die for our grail  
Over rivers and lakes  
Over castles and caves  
We follow our hearts  
Till the end of this tale  
Come with me, rise with me  
Fortune, be my guide  
Fight with me, bleed with me  
Till the morning light

Ja!

Atrocities  
Each single day  
A struggle within  
Kills me

[Chorus]

Ja A sudden pain tears me down to the ground  
The last insight, it deeply hurts, it's over now  
Then, like a wave of relief, I close my eyes  
Your praying words I can not hear, too far away  
I spread my arms, flowed away through the mist  
Flickering lights, a fleeting glimpse and it's all gone  
And what remains is a tale, a story told  
The light so clear, I'm on my very last way

Grailknights Battlechoir!  
Yes Sire!

Hail to the grail! [4x]

Ok, Ok, Ok, Battlechoir  
Calm down Battlechoir!  
I see you standing in front of me  
Now I want to hear every single voice!  
And when I say "every single voice"  
I mean every single voice  
And now, by the sake of our holy grail  
Scream like you have never screamed before!  
Hail to the grail

Hail to the grail  
And now for the ladies!  
Hail to the grail  
For me!  
Hail to the grail  
All together!  
Hail to the grail  
For my mother!  
Hail to the grail  
For my grandmother!  
Hail to the grail

[Chorus]

Yes  
And once again
