(Child child, child, the child) father of the man (father  
of the man, father of the man)

(Child child, child, the child) father of the man (father  
of the man, father of the man)

(Child child, child, the child) father of the man (father  
of the man, father of the man)

(Child child, child, the child) father of the man (father  
of the man)

Easy my child, it's just enough to believe (I believe, I  
believe, I believe)

Out of the wild into what you can't conceive

You'll change

(Child child, child, the child) father of the man (father  
of the man, father of the man)

(Child child, child, the child) father of the man (father  
of the man, father of the man)

(Child child, child, the child) father of the man (father  
of the man, father of the man)
