Night time is delight time  
It's starlight time  
And it's the right time for me

Night time is delight time  
It's starlight time  
And it's the right time for me

'cause the sun shines a little too bright  
My eyes can't take that light  
Will you be waitin' there  
In the cool of the twilight air  
That's where we'll be because

Night time is delight time  
It's starlight time  
And it's the right time for me

Night time is delight time  
It's starlight time  
And it's the right time for me

Night time is delight time  
It's starlight time  
And it's the right time for me

Night time is delight time  
It's starlight time  
And it's the right time for me

Downtown where the sun beats strong  
Eight hours is a little too long  
When I see that sun goin' down  
I drive to the edge of town

Wait for awhile because

Night time is delight time  
It's starlight time  
And it's the right time for me

Night time is delight time  
It's starlight time  
And it's the right time for me

Night time is delight time  
It's starlight time  
And it's the right time for me

Night time  
Light time  
Right time  
Right time

So there it goes  
Sun's sinkin' down  
It's gettin' dark

Colors are fading fast  
Night covers the sun  
And leaves no mark

The neighborhood  
Everyone has gone back inside  
It's understood  
Won't you sit down right by my side

Night time  
Light time  
Light time  
Right time for me

Night time (night time) is delight time (light time)  
It's starlight time (light time)  
And it's the right time for me (right time for me)

Night time (night time) is delight time (light time)  
It's starlight time (light time)  
And it's the right time for me (right time for me)

Night time (night time) is delight time (light time)  
It's starlight time (light time)  
And it's the right time for me (right time for me)

Night time (night time) is delight time (light time)  
It's starlight time (light time)

And it's the right time for me (right time for me)

Night time

Light time

Light time

Right time for me
