"Execution"

Watch while I'm burned in salt
tell me now where's my fault
I'm torn in two, you pull me through
oh ignore my shout now scrape me out
Oh, nation murders me, me, me
such me down your hose
pieces of my fingers and toes
use me to brew your lab rat stew
oh dissolve my voice for your woman's choice
my execution, it's your revolution
spill my blood on "civil" hands
and I pay to make you free
oh, nation murders me
yeah, with politicians dreams
now silencing my screams, screams, screams
