Cover me up, I'm laying here naked
Waiting forever but forever never comes
So tell me what's better
This one or the one we had before
I'm here to discover have you got a secret to offer
You can place me in front of the shooting guns
Cause I can't stand the reality of it all
I got my head on your shoulder
But I can't see your face
I hear you're talking of some nameless place
I really wanna go there
I really wanna go there with you
With you

I'm on the right side
In the mist of the morning
Clearly it's me that missed the last warning
So tell me what's after
What comes after the rain

Lose some meaning and gain some power
I'm right here in my golden hour
Laying on my back
I just want you to have it all
I saw you at the wedding, at some strangers house
I really thought I knew you like I know you now
But here comes another restless lover for you

I'm on the right side
In the mist of the morning
Clearly it's me that missed the last warning
So tell me what's after
What comes after the rain
I'm in the front line
Waving my flag high
Don't know the words I just hope that I'm right
So tell me what's after
What comes after the rain
The rain

Making my way through

This reckless slumber
The prettiest girl is the one that I'm under
I'm as lucky as most

I'm on the right side
In the mist of the morning
Clearly it's me that missed the last warning
So tell me what's after
What comes after the rain
I'm in the front line
Waving my flag high
Don't know the words I just hope that I'm right
So tell me what's after
What comes after the rain
