The city's on fire, The city's on fire
We took off faster than we ever did
Now go real slow, go real slow
Sixty hours and our love will show

The right moves at the wrong time
I'm a bit knocked out here at ringside
I still want this good life
I can taste your blood for the first time

Her sleep is so quiet, her sleep is so quiet
Her thoughts are loud an unexplained
So give me your good face
Give me your good grace
She can be so cruel
She can be so mean

The right moves at the wrong time
I'm a bit knocked out here at ringside
I still want this good life
I can taste your blood for the first time

All I want is to wake up
On a perfect day in a perfect way
I want you to be here with me
And make this doubt go away

The right moves at the wrong time
I'm a bit knocked out here at ringside
I still want this good life
I can taste your blood for the first time

The city's on fire, The city's on fire
We took off faster than we ever did
Now go real slow, go real slow
Sixty hours and our love will show
