[Music: Gelal/Lyrics: Gelal]

The gatekeepers amputate their arms in torment  
Abandoned by the painful shackles of heaven  
Their maternal bodies devoured gruesomely  
Father of the unconceivable lifts his shield

His name was unknown to me  
Until I entered the arcane  
Depths of the Demonarchy  
Summoning Jehova's Casket

There exists secrecy among the troops  
Waiting to besiege the fountain of life  
Like torches of a forgotten Kristallnacht  
Storming through the city of Nazareth

His name was unknown to me  
Until I entered the arcane  
Depths of the Demonarchy  
Summoning Jehova's Casket
