The moon ignites the thiestean flame
Tempestuous winds call out my name
Red orphic rays shine unto me
It's the threshold of lycanthropy
The wanton cravings and salacious desire
Kindle my seething promethean fire
The tethered wolf has been unleashed
To hunt and kill voraciously
Diana, fake me into thy womb
To thine lunar radiance I swoon
My lustfulness forever blooms
In rapture by the fenrir moon
With mordacious fangs and feral claws
I exercise the primordial laws
My lupine cock is fixed to rise
And fuck the marrow of life
Pious lambs know not Satanic truth
Sweetest the tongue, sharpest the tooth
The dawn ascends and I evade
Rack into the woods from whence I came
Diana, take me into thy womb
To thine lunar radiance I swoon
My lustfulness forever blooms
In rapture by the fenrir moon
