Visit "[Break The Angels](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You can break the angels when they fall on you  
You can bone the bony when they call on you  
You can break the angels when they fall on you  
You can break the angels when they fall on you

I'm camera shy, I'm terrible at names  
But as the years go by  
I'm more open to playing your games  
So I say

You can break the angels when they fall on you  
You can bone the bony when they call on you to do  
You can break the angels when they fall

I'm camera shy, I'm terrible at names  
But as the years go by  
I'm more open to playing your games

You can break the angels when they fall on you  
And you can bone the bony when they call on you to do  
You can break the angels

Don't fake it, don't break it  
Don't fake it, don't break it  
Don't fake it, don't break it  
Don't fake it, don't break it

Don't fake it, don't break it  
Don't fake it, don't break it  
Don't fake it, don't break it  
Don't fake it, don't break it

Don't fake it, don't break it  
Don't fake it, don't break it  
Don't fake it, don't break it  
Don't fake it, don't break it
