Visit "[Be Thou My Television](#)" on [MotoLyrics.com](#)

Words of life fill up my empty soul  
And set my spirit free  
And there's a light in a black remote control  
That turns on my TV  
My salvation and my playstation  
Are both competing for my attention  
It's a given but I'll still mention  
What came out of this decision

(chorus)  
I need to watch the television  
This was a tough one to decide

Later I'll sing 'Be Thou My Vision'  
If I'm not too tired

And my heart burns inside my chest to pray  
And turn to God again  
Then I press start on my NBA2K  
And the Lakers always win  
I've got time to burn way to waste the day  
My IQ to kill but no time to pray  
If my life gets rough or if I'm bored enough  
I might do important stuff
