I'm an insect, you're the master
You are the father and I'm the bastard
Swallow poison, tongue is frozen
You made me feel so unchosen

So call my name now
And take my shame and drink it down
And I'll remind you from the ground
From underground, bloodsucker
The day I died you left me
Bleeding like an alien

So call my name now
And take your blame and shove it down
And I'll remind you from the ground
From underground, motherfucker
You threw me to your dogs and then you left me
Bleeding like an alien

Yeah, you wanna feed this
Yeah, you wanna bleed this
Don't try to stop, you wanna see this
Don't try to mend, you wanna need this
Don't try to break, you wanna be this
Don't try to bend, you wanna feel it
You wanna feel it, you wanna feel it now.

Take me far away from you, from you.
Dig my grave and shove me through
