

The Accident Experiment

"Demon Slide"

Visit "[Demon Slide](#)" on MotoLyrics.com

Kill the lights and kill the sound...

Hotel room is cold and lonely
Fortress to my inner pain
Swollen earth keeps spinning in my brain

Don't tell me she's like an evil sign
Don't tell me she's like a demon slide
Black volcano blowing in my head
Black volcano leaving me for dead

Empty bottle on the table
Alcohol to drown the fable
Romeo is passed out in his grave

Falling down, all around...
Falling, falling, falling down
Falling down, falling down
Down and down and all around
Falling down, falling down
Kill the lights and kill the sound

Don't tell me she's like an evil sign
Don't tell me she's like a demon slide
You can never stop me from ascending off your shelf
You can never stop me from believing in myself
