

The Accident Experiment

"Inside"

Visit "[Inside](#)" on MotoLyrics.com

I don't care what it means,
I have to find my way back home
I can't hear what tomorrow says
I don't feel inspiration, wheels
That turned are stuck inside
I lose the situation's eye

Somebody tell me...

What's inside?
The future runs away from me
Inside, inspiration turned on me
I can't begin to drop you now
I'm crawling just to move somehow inside

I can't explain the picture
Trapped inside this echo now
I'm burning from my inner child
I'm crawling in my shadows
Blind I try to find my sky
With wings that never let me fly

Can you help me?
Someone tell me who I am inside.
