Well I love her and she's leaving  
She met a man, plays in a band, last weekend  
And he lives out on the west coast  
She says she's gotta go

But it's a long, long way from Myrtle Beach to L.A.  
Anything could change her mind  
One sunset or one regret  
She could turn around, come back, and be mine  
Happy endings happen all the time

She's almost finished packing  
It's over 2,000 miles- a lot can happen  
There's gonna be days and days of long stretches  
Maybe she'll come back to her senses

It's a long, long way from Myrtle Beach to L.A.  
Anything could change her mind  
One sunset or one regret  
She could turn around, come back, and be mind  
Happy endings happen all the time

Well I ain't waitin' on no phonecall  
I ain't gettin' my hopes up  
And I ain't settin' myself up for a fall

But it's still a long, long way from Myrtle Beach to L.A.  
Anything could change her mind  
One sunset or one regret  
She could turn around, come back, and be mine  
Then everything would be just fine  
Happy endings happen all the time

Oooo yeah they do  
It's a long, long way from Myrtle Beach to L.A.
