

Grand Prize "Like I Never Did"

Visit "[Like I Never Did](#)" on MotoLyrics.com

The sun rises everyday
Only to rise again like yesterday
Chasing lies I've gone astray
Won't You please give me back yesterday

Oh Lord I need you now like I never did
Won't You satisfy me
With Your love that never ends

Every heart that seeks the wind

Will be left searching and wandering again
Every heart that seeks Your face will
Be met with Your amazing grace

I see Your love reaching out for me
When I want to walk away
Walking I saw Your love today
