Well, that's how we move it  
This is how we move it  
That's how we move it  
This is how we move it

That's how we move it  
This is how we move it  
Aiyyo, Doogie, how we move it?  
This is how we move it

Well, it's time to kick the flavor with the 'You know who'  
Stud Doogie, Alamo and the one Grand Pu'  
Check out the ringle, hit the spot that'll tingle  
Make the hons wanna jingle, I stay crisp like a Pringle

Check how we set off, last stop's where we get off  
You know it's flavor, three shots lick the glock off  
Buck buck buck, you know how it go  
Grand Puba, Stud Doogie and Alamo

So what's the 411? Loungin' black  
Hilfiger knapsack with a 40 in the back  
So hon, shake the goodies, don't front on the puddy  
With the rubber and the hoodie, I peck the hole like  
Woody

Show no shame, with everythin' to gain  
Honies always singin', how can I ease the pain?  
When they think I'm comin' back but that's game  
This is the real, how I wheel and deal

First round, draft pick like big Shaquille O'Neal  
Shit's so dope that I might catch a steal  
Stud Doogie, Alamo, spin the wheel

'Cause that's how we move it  
This is how we move it  
Well that's how we move it  
This is how we move it

That's how we move it  
This is how we move it

Aiyyo, Doogie, how we move it?  
This is how we move it

I'm with this rich girl named Dawn, hit the skins on the  
lawn  
Ron Stud had her sister in the crib playin' Twister  
They lived in Poughkeepsie, Moms was a gypsy  
Pops was in the crib but he was upstairs tipsy

Know I got soul, baby, jump upon a pole  
Janet Jackson took a ride, she's no longer 'In Control'  
The bedroom worked, not a bone jerker  
Good like Black and Decker, knockin' skins from here  
to Mecca

Like one two three  
Or A B C  
Or do re mi  
Fa so la ti

Honey called me brilly, I told her she was silly  
Cut my ex-girl off 'cause she worked my last frilly  
The new skin shower, microphone goer  
Girls follow me like animals did Noah

From Tracy to Pattie, Linda down to Tina  
Every time I see some skins then pop goes the weener  
Puba, the devil roaster, I keep a tool in my holster  
Mess with me and I'll be on a wanted poster

'Cause that's how we move it  
This is how we move it  
Well, that's how we move it  
This is how we move it

That's how we move it  
This is how we move it  
You know the deal, huh  
Spin the wheel

Get down  
Get down  
Get down  
Yeah, check it

It's time to switch it up, so I'll breeze back to the rest  
Put on some Polo gear and a baggy pair of Guess  
Put on my baseball cap, refill my knapsack  
This ain't Poltergeist but I'm back

You know the M.O. on Doogie Alamo

Cuts so sharp make like Shaft and get an afro  
Better yet, you can take it down low  
Al's my man but that perm gotta go, gotta go

So all you copycat rhymers swine and dinin' on the  
riplets  
Get downtown, see my mic on exhibit  
No need to worry 'cause I'll be there in a hurry  
Yo, hon, I'll smack it out like Darryl Strawberry

Keep your head spinnin' cause I only heard of winnin'  
Played the game before so I can go the extra innin'  
Grand Puba, Stud Doogie, Alamo here to prove it  
This is how we move it

'Cause that's how we move it  
This is how we move it  
That's how we move it  
This is how we move it

That's how we move it, baby  
This is how we move it  
Ayyo, Doogie, how we move it?  
This is how we move it
