We're punked up, funky up
Dead from the neck up
We've hijacked the dex the world is gonna be next

We wanna wreck the town with the infidel rokkit

We love that you love us and you know it

We.. love.. you..
We love you! (x 4)

No brakes but you know we've got a radio
You gotta move when we're rocking on your stereo

We wanna hit the town with the infidel rokkit

We love that you love us and you know it

We.. love.. you..
We love you! (x 4)

We.. love..

(instrumental section)

We love that you love us and you know it

We.. love.. you..
We roxor (x4)
