feat. Terry Callier

I'm so into the things we share  
Like floating in the air  
Like a magic carpet ride  
Nowhere to run, nowhere to hide

I step into a looking glass  
See the future and the past  
The room is blue and cold as ice  
And I'm lost in paradise

Allons ensemble dans l'atmosphere  
Laissons passer les courants d'air  
We have no time to waste my friend

Yes, Come on!  
Let's get in the wind  
Let's get in the wind  
The music gives speedy groove  
I relax and watch you move  
If I close my eyes instead  
You're dancing in my head  
In my head

I step into this looking glass  
See the future and the past  
The room is blue and cold as ice  
And I'm lost in paradise

Allons ensemble dans l'atmosphere  
Laissons passer les courants d'air  
We have no time to waste my friend

Come on!  
Let's get in the wind  
Let's get in the wind
